

You can also —
AMPLIFY YOUR UKULELE

for
 Glorious
 Powerful
 Tone!

Any ukulele can be electrically amplified to produce glorious powerful tonal volume. For your own pleasure you will enjoy the rich tone and power of amplification. On occasions when entertaining a group of people you can have all the volume desired, or extra volume to play with other instruments.

The "De Armond" microphone is readily attached or removed. The Vega "Odell" amplifier is full of power, even for a large auditorium, and easy to carry. — 3 power tubes give 8 watt volume — in-puts for two instruments — and volume control — operates on regular 110 volt AC current.

If you like impressive glorious tonal power, you will want to amplify your instrument.

presents the

ARTHUR GODFREY

BARITONE UKULELE

A SUBERB INSTRUMENT!

ARTHUR GODFREY uses this Baritone Ukulele on his famous radio and television shows and recommends it as the finest of all ukuleles. This ukulele with its extra large body and longer fingerboard is not only easier to play but produces a big tone of enhanced mellowness and rich musical quality.

- **EASY TO LEARN.** Just as easy to learn as a small size ukulele — three or four chords give you a start for lots of musical enjoyment! If you already play a uke, you can play this Baritone Ukulele at once with the same chord fingering. It is tuned lower, E, B, G, D to give more musical quality and tonal power. This tuning also has the advantage of being the same as the first four strings of a regular guitar.
- **EASY TO PLAY.** The longer neck and more space between frets makes it easier to finger many chords and is also perfect for solos.
- **PROFESSIONAL** players of guitar find this Vega Baritone Ukulele the ideal instrument for special solo and rhythm effects and thus enhance their musical prominence.
- **TEACHERS** are recommending this Baritone Ukulele as a perfect instrument for musical education. They also particularly recommend it as the ideal instrument for many beginners to start with prior to regular six string guitar, because of its more convenient size and since the first four strings are played the same as guitar.
- **A POPULARITY HIT.** Take this pre-dominant ukulele with you wherever you go and create a hit with your friends. This is the only ukulele with the Arthur Godfrey name and is made by Vega.

BARITONE UKULELE

THE BARITONE UKE. Called a Baritone for its great tonal depth and power. Built by Vega's skilled hand craftsmen; the body and neck are made of choice selected mahogany with beautiful semi-gloss finish. Extra large size, practically 10 inches wide with 28½ inch overall length! Rosewood fingerboard and bridge. Pearl position dots, fine metal tuning pegs, nickel silver frets and nylon strings.

As this is truly a fine instrument and built for tone, a carrying case is recommended for protection as well as convenience to take it with you.
